

XADO RED CAT SHIELD

Product Description:

The efficiency and service life of a catalytic converter are negatively affected by a number of factors, including even minor issues in the fuel system, low-quality fuel, etc. In addition, ceramic dust from a damaged catalytic converter may enter the combustion chamber and cause scoring in the cylinders. For efficient and reliable catalytic converter performance, use **XADO RED CAT SHIELD**.

Key Components and Benefits:

- **OXY8 BOOST BLEND** — a complex of combustion catalysts, oxygenates, and octane-boosting components that ensures complete fuel combustion and prevents clogging of the catalytic converter.
- **2xPEA** — a double-concentration polyetheramine (PEA) based cleaner that reduces soot deposits on combustion chamber surfaces.
- **PIBA X-BLEND** — a powerful fuel injector cleaner and detergent booster.
- **REVITALIZANT** — protects parts from the ongoing wear, restores the fuel pump, and prevents scoring in the cylinder-piston group.

Application: Add the product to the fuel tank before refueling. For gasoline engines only!

Notes: Dosage: 250 ml of the product per 40–60 liters of gasoline.

Composition: Multifunctional additives, REVITALIZANT.

Usage Recommendations:

- Ideal for preventive maintenance of catalytic systems, especially when using alternative or low-quality fuels.
- Use alongside XADO REDANTICARBON for comprehensive engine cleaning. RED CAT SHIELD ensures a clean catalytic system, while REDANTICARBON targets piston and ring deposits.

Packaging:

250 ml canister, XA 41026
